Greetings in Christ,

What a wonderful experience and impressive success the Catholic College Night was this past September. Our state campus ministry has had two previous events in the Spring with far less involvement of colleges and even less student attendance. This event was so well planned. The network of communication that the St. Patrick Knights of Columbus created, and the constant attention to detail and follow up, led to an impressive collection of Catholic colleges at Cleary University, and over 200 people stopping by to visit college reps.

From the welcome we all received, the signage so we knew where to go, to the attention to detail throughout the event, all were able to receive what they came for. They were able to check out 18 Catholic colleges, go to workshops on finance, faith, sports, and other activities. They even fed all those that came.

I was deeply impressed with the organization, commitment, and faith demonstrated by the Knights and look forward to future ministry together.

Love in Jesus,

Pat Rinker
